

Move Your Mission Forward

Agile Defense is rapidly expanding its capabilities with Agile Labs—a modern, cloud-based, secure technical laboratory dedicated to addressing the most complex mission and advanced challenges faced by defense and civilian customers. Building on Agile Defense’s 25+ years of experience supporting the Department of Defense and civilian agencies, Agile Labs is a creative hub where real-world problems are solved through ideation, rapid development and operational innovation in Cybersecurity, Digital Transformation and Data/Artificial Intelligence. Agile Labs is a versatile and flexible tool that allows us to customize our approach for every individual client and their specific mission.

Services

Agile Labs is a mission-focused innovation engine designed to develop and deliver impactful solutions for today’s most pressing challenges. The team’s approach is centered on:

Rapid MVP Development

Building Minimum Viable Products (MVPs) that address customer challenges quickly, enabling agencies to see immediate impact and refine solutions based on operational needs.

Proof of Concept Creation

Designing and delivering proofs of concept that validate innovative ideas in real-world mission environments, demonstrating tangible value before full-scale implementation.

Analysis of Alternatives (AOAs)

Conducting detailed evaluations of potential solutions, providing customers with actionable insights into the best technological and operational paths forward.

Solution Ideation and Development

Partnering with customers to brainstorm, design and implement innovative solutions that tackle real-world mission challenges, from advanced cybersecurity defenses to scalable data strategies and AI-driven decision-making tools.

Operational Innovation

Delivering mission-ready solutions that enhance capability, reduce risk and enable transformative outcomes.

Key Customers & Missions Supported

AI-related use cases Agile Labs executes in various stages of R&D include:

- Airforce Office of Scientific Research (AFOSR)
- Marine Corps Force Reserves (MARFORRES)
- DHS TSA Focused Ops. (FO)
- Program Executive Office Aviation (PEO AVN)

Key missions supported:

- Army Central ARCENT G6
- Army Training and Doctrine Command
- Army Program Executive Office – Aviation
- Program Executive Office Missiles and Space

From Concept to
Deployment, Impact
Your Mission Success
with Agile Labs.

Agile Labs Solutions

At Agile Labs, we pioneer new technologies and chart novel solutions to achieve unprecedented advancements. Our expertise lies in Human Centered Design (HCD), Data and AI, and Cybersecurity, positioning our labs as the nexus of innovation.

Workforce

Workforce is our in-house GenerativeAI platform that creates a seamless integration between human expertise and AI capabilities, empowering our organization to redefine productivity and innovation. Workforce transforms traditional workflows into dynamic, AI-driven ecosystems tailored to meet the challenges of today and tomorrow.

DuroSuite®

DuroSuite® revolutionizes compliance processes through features like automated STIG handling, comprehensive auditing and remediation capabilities, seamless API integration, and a dedicated user interface aimed at simplifying complex tasks, all aimed at keeping your infrastructure ahead of compliance curves.

TorqCloud

TorqCloud is a DataOps platform designed to help enterprise source, move, enrich, visualize, secure, and now interact with your data in a natural language way. Built to handle data however your organization stores and structures it – and serves it in a consistent, clean fashion for your AI enabled products and workforce.
